1 OIAN

Figure 1: Schematic view of the intermediate intrinsic muscles of the back (Erector spinae)¹

Table 1: Iliocostalis OIAN

Muscle	Origin	Insertion	Nerve	Action
Iliocostalis cervicis	3rd-7th ribs	C4-C6 TP	Spinal nn. C8-L1 (Post rami, lateral branches)	BIL: Extends spine; UNIL: I/L spine lat-flexion
Iliocostalis thoracis	7-12th ribs	1st-6th ribs	Spinal nn. C8-L1 (Post rami, lateral branches)	BIL: Extends spine; UNIL: I/L spine lat-flexion
Iliocostalis lumborum	Sacrum, iliac crest, lumbar vertebrae SP; lower thoracic vertebrae TP	6-12th ribs, thoracolumbar fascia (posterior layer), upper lumbar vertebrae (TP)	Spinal nn. C8-L1 (Post rami, lateral branches)	BIL: Extends spine; UNIL: I/L spine lat-flexion

Figure 2: Intermediate intrinsic muscles of the back / Erector spinae (Posterior view)¹

2 Iliocostalis Cervicis

2.1 Origin

3rd-7th ribs¹

2.2 Insertion

C4-C6 TP¹

2.3 Innervation

[Spinal nn.](#) C8-L1 (Post rami, lateral branches)¹

2.4 Action

3 Iliocostalis Thoracis

3.1 Origin

7-12th ribs¹

3.2 Insertion

1st-6th ribs¹

3.3 Innervation

[Spinal nn.](#) C8-L1 (Post rami, lateral branches)¹

3.4 Action

4 Iliocostalis Lumborum

4.1 Origin

Sacrum, iliac crest, lumbar vertebrae SP; lower thoracic vertebrae TP¹

4.2 Insertion

6-12th ribs, thoracolumbar fascia (posterior layer), upper lumbar vertebrae (TP)¹

4.3 Innervation

[Spinal nn.](#) C8-L1 (Post rami, lateral branches)¹

4.4 Action

- **Bilateral:** Extends spine¹
- **Unilateral:** I/L spine lat-flexion¹

5 Muscle groups

Iliocostalis is part of the [Intermediate intrinsic back muscles](#) (erector spinae)

6 Palpation

Clinical significance
